RELEVANT WORK EXPERIENCE

Workhuman | Framingham, MA

Frontend Developer | May 2022 - Present

- Lead the initiative to modernize our event app utilized at our live in-person events throughout the year using Next.js, Typescript, and DocumentDB
- Worked on several components and provided QA support for the new Workhuman website
- Deliver highly responsive, high-impact event websites with a keen eye and attention to detail
- Develop custom websites for event experiences ranging from Next.js to WordPress
- Contribute to the upkeep, redesigns, and maintenance of corporate web properties
- Optimize and push forward existing code to improve performance and scalability
- QA development work to ensure fidelity across device types and browsers
- Implement, monitor, and report on A/B and multivariate testing and continually optimize websites based on results

MP | Beverly, MA

Web Developer - Graphic Designer | Aug 2020 - Apr 2022

- Design custom WordPress website from concept to completion following best practices for SEO and overall user experience
- Develop and maintain print/web collateral, graphical standards, marketing, and video productions for the company and colleagues
- Publish content through blogs and design social media for multiple platforms to promote eBooks and Webinars with an SEO focus

Freelance | Plymouth, MA

Web Developer - Graphic Designer | Sep 2019 - Present

- Develop custom websites, print material, social media, and more for clients ranging from therapists to education groups
- Design and build restaurant focused brands and materials for several culinary group events
