## Relevant Work Experience

### Workhuman / Web Developer III (Full Stack)

May 2022 – Present, Framingham, MA

- Led front-end and back-end development for multiple high-visibility web applications using **Next.js, React, TypeScript, Node.js, and AWS**.
- Rebuilt the Gratitude Bar event app for **3,000+ attendees**, using **WebSockets with AWS AppSync** and **DynamoDB** for real-time updates, and optimizing for UX performance and scalability.
- Led the transition from a **legacy WordPress** environment to **Contentful**, rebuilding the Workhuman Live marketing site to improve accessibility (WCAG compliant), site structure, and mobile responsiveness. Supported the migration of Workhuman.com to a scalable, headless architecture.
- Developed a **real-time** AI chatbot using **Next.js, Python, and OpenAI** to replace traditional site search with intuitive natural language queries. Designed to scale beyond customer support, with planned enhancements to support sales and prospect engagement.
- Collaborated with SEO, Brand, and Infrastructure teams to ensure **performant, secure, and scalable deployments**.
- Led cross-functional planning and ticket triage for multiple web initiatives.
- Participated in code reviews, mentored teammates, and helped drive testing strategies and improvements.

### Contentful Apps (Nestly.dev) / Creator & Maintainer

Sep 2024 – Present, Plymouth, MA

#### Repeater App

Add repeatable groups of fields without bloating your content model. Stores repeated data in a single JSON object to **reduce schema complexity** and stay within Contentful's reference depth limits. Ideal for replacing or complementing nested references in large-scale builds.

#### Conditional Fields

Bring intuitive **ACF-style field logic to Contentful**. Control field visibility dynamically based on other field values, improving editor UX and reducing clutter in complex content types.

#### Alt Text Generator

Automatically generate AI-powered, accessibility-focused alt text for image assets. Descriptions are tailored to both media content and component context, **supporting inclusive design and maintaining SEO best practices**.

## Education

### Boston University

Masters of Science in Software Development, Web Application Development Focus

### Johnson & Wales University

Bachelors of Science in Graphic Design, Web Design Focus

### Google UX Design Professional Certificate, Coursera

## Relevant Work Experience Continued

### MP / Web Developer and Designer

Aug 2020 – Apr 2022, Beverly, MA

- Created and maintained the company's marketing website using **WordPress, PHP, JavaScript, jQuery, and SCSS**, ensuring consistent performance and responsiveness across devices.
- Developed modular, accessible custom themes and components, aligning with brand standards and improving editor workflows.
- Collaborated cross-functionally to **design marketing assets** including eBooks, infographics, business cards, and web-ready visual content to support brand campaigns.

### nathanspinetti.com / Freelance Developer and Designer

Sep 2019 – Present, Plymouth, MA

- Designed and developed custom websites for clients using WordPress and modern design systems.
- Provided strategic consulting on conversion rate optimization (CRO), accessibility compliance (WCAG), and technical SEO to improve site performance and user engagement.
