linkedin.com/in/nathanspinetti/

Frontend-leaning Full Stack Software Engineer with 5+ years of experience specializing in **React**, **TypeScript**, **Python**, and **AWS**, with a strong track record building **real-time**, **event-driven** systems, **AI-powered features**, and **scalable APIs** in production environments.

Relevant Work Experience

Workhuman – Software Engineer III (Full Stack)

May 2022 – Present | Remote/Framingham, MA

- Rebuilt the Gratitude Bar live event platform using **AppSync GraphQL APIs** (queries, mutations, subscriptions) and **DynamoDB**, enabling **real-time updates via WebSockets** for **5,000+ concurrent users** and **increasing engagement by 264%**.
- Designed and maintained backend services and APIs using **AWS Lambda**, **AppSync**, and **API Gateway** to support **real-time** and **asynchronous** application workflows.
- Owned infrastructure and deployment pipelines across frontend and backend, including CI/CD workflows, environment configuration, and cloud resource management.
- Championed performance optimization across the stack, leveraging **caching strategies**, **CDN configuration**, and **efficient data fetching patterns**.
- Led complete redevelopment of **Workhuman Live** marketing site from WordPress to **headless Contentful + Next.js** with SSR/SSG – improved Lighthouse score **49 > 99**, cut load time **86%**, and achieved **WCAG accessibility compliance**.
- Developed an AI-powered conversational search experience using **Python**, **AWS Lambda**, and the **OpenAI API**, evaluating feasibility and scalability for internal use cases.
- Led cross-functional planning, roadmapping, and ticket triage; mentored engineers, improved test coverage, and set **code review standards**.

Nestly.dev – Contentful App Creator & Maintainer

Sep 2024 – Present | Remote/Plymouth, MA

- **Repeater App**: Designed and built reusable Contentful editor extensions using React and TypeScript to improve content authoring workflows and editor UX at scale.
- **Conditional Fields**: Implemented dynamic editor logic (conditional fields, repeatable schemas) to support complex content models at scale.
- **AI Alt Text Generator**: Built AI-powered editor tooling using Python and AWS to generate contextual image alt text, improving accessibility, SEO, and content velocity.

Education

Boston University

Masters of Science in Software Development,
Web Application Development Focus

Johnson & Wales University

Bachelors of Science in Graphic Design,
Web Design Focus

UX Design Professional Certificate

Skills

Languages & Frameworks: TypeScript, JavaScript (ES6+), React, Next.js, Python, Node.js, GraphQL, HTML, CSS, Tailwind

Backend & APIs: AWS Lambda, AppSync (GraphQL), API Gateway, DynamoDB, EventBridge, WebSockets, REST & GraphQL API design, real-time systems

Cloud & Infrastructure: Amazon Web Services (AWS), CI/CD pipelines, serverless architectures, event-driven systems, CDN and caching strategies, GitHub, Vercel, Contentful, Infrastructure ownership
