Contentful Apps (Nestly.dev) / Creator & Maintainer

Sep 2024 – Present, Plymouth, MA

Repeater App

Reduced schema complexity in Contentful by storing repeatable field groups as a single JSON object—now powering internal CMS workflows across multiple Workhuman environments.

Conditional Fields

Developed ACF-style field logic to dynamically control field visibility, improving editor UX for complex content types and reducing content entry friction for internal teams.

Alt Text Generator

Built AI-powered alt text generator with contextual descriptions to enhance accessibility, SEO, and editor UX—compatible with WordPress and CLI.
